

Pivit

Print and Play

How to make your game

1. Print out pages 1-6; don't print page 7 yet.
2. Place page 6 back in the printer so that page 7 will print on the back of it in the correct orientation – the colors should match up.
3. Print page 7 on the back of page 6.
4. Tape together 4 board pages into a single 8x8 board.
5. Cut out master tokens (p.1) and pieces.

**Read these
instructions
before
printing!**

Gameplay instructions are available from:

http://pivitgame.com/pivit_rules.pdf

1st to get a Master	2nd to get a Master	3rd to get a Master	4th to get a Master
---	---	---	---

Master Tokens

Each player earns one of these tokens when they receive their first master. If the game ends with a tie between number of masters, these tokens help players keep track of who wins the game.

Example:

Here is the situation at the end of a 3-player game:

red	1 master left	1st token
blue	2 masters left	2nd token
green	2 masters left	3rd token

In this case, blue wins because they received their first master earlier in the game than green.
